

# Shystie, Make It Easy

Why didn't you say this before, them times when I wanted more  
Remember I moved too you but then you said you weren't sure  
So we sat and spoke about this and agreed to stay friends  
And now your saying that you want me when I'm moving out the ends  
Look at my friends that you've been through  
I've seen what you put them through  
Your wrong, its kind of long,  
I've now moved on, I can't get with you  
Sorry to tarnish your plans  
But you need to understand  
That you had that chance to be my man  
But didn't feel to take the stand  
And now your telling me today  
When tomorrow I'm moving away na, that's deep I cant stay  
You need to know this, I ain't taking no notice  
Cos I was raised not too let no man distort my focus  
Thou my heart is sugar coated  
Its sealed and still bolted  
Hun I notice, how you move  
So I could never be devoted  
don't risk what you got, cos you got too much to loose  
'But I love you' na you just dazed and confused

[CHORUS]

Make it easy on yourself [x4]

[VERSE TWO]

This whole scenario, just shows we weren't meant to be  
Cos I love as my friend now, so it's best I leave  
Look.. your out there studying your masters degree  
While I like a thug that devises bank robberies  
Ya see, Shystie's all about living life fast  
Hopping in and out of cars, thugs repping it large  
You cant change your ways, so just keep to your books  
Because there's no such things as 'No half way crooks'  
This is what I'm on, who I am, I ain't gona change  
I'm about the street fame living in the fast lane  
Let me make this brief, my ways get me into beef  
So I need a man, that's on guard ready to roll deep  
Use your logic don't go with your heart, I'm rough round the edges and dark  
Yeah we got a deep past but it will never last  
I'd rather past, you were right from the start,  
Friends until the day we die, friends until we past

[CHORUS]

[Repeat]

[VERSE THREE]

Look, you need a relationship that's stable, I ain't really able  
I know you got faith boo, but I'm far from a angel,  
In my ends I'm labelled, my tag name will say it all  
so I couldn't guarantee to you that I'd stay faithful  
You need a girl that moves with a slow tempo  
Appreciates the things you do and gets sentimental  
I ain't the one to like, your not my hubby type  
don't throw away your life your playing with a game of dice  
'I don't care what you say I wana be with you  
I wana hold you down I've opened up my heart to you'  
Right now I really don't care this situations not fair  
In months to come I bet that you'll forget I even lived here  
I'll be your blurred memory,  
I bet you wont even remember me  
You'll be like what's that chicks name again  
Like you ain't heard of me  
So just keep your head and just hold it firm  
And we can both take this as a lesson that we've learnt

[CHORUS]

[Repeat]
