

# Sia, Blow It All Away

[Verse 1]

Without a sound ever heard  
Without a lesson I've learned  
You're foolish  
And diluted

Too many lies have you burned  
Where there's eyes to be found  
This seems life's underground

[Hook]

But even if you had it all  
You would find  
I could never let you stay

'Cause you blow it all away  
Blow it all away  
Blow it all away

[Verse 2]

If you go  
I will stall

Yes I see it  
Yes I feel it  
You have no questions at all

But if life is truly devoured  
I'll strip your bare 'til truth comes out

[Hook]

But even if you had it all  
You would find  
You blow it all

You blow it all away  
Blow it all away  
Blow it all away  
(Repeat)

[Bridge]

Forever is your mind to be naive  
Remember  
It will bring us to our knees  
You blow it all away

[Hook]

'Cause even if you had it all  
You would find  
You blow it all

You blow it all away  
Blow it all away  
Blow it all away  
(Repeat)
