"It Gets Dark" to tytuł nowego singla Sigrid, który pojawi się 9 marca 2022 r.

High, there's a reason for my high  
There's a whole world outside, I saw it last night  
Yeah, they're saying I'm insane 'cause I wanna go to space  
And leave it all behind, and leave it all behind  
I'm leaving

I, I've never, ever been this far away from home, and now I know  
It gets dark, yeah, it gets dark and I  
I'm moving at the speed of light, I have to go  
But now I know, it gets dark so I can see the stars

Yeah, my feet came off the ground  
Gravity won't hold me down, no, not this time  
And I'm not who I used to be 'cause I came out here to see  
The universe inside  
I'm leaving them behind, I'm leaving

I, I've never, ever been this far away from home, and now I know  
It gets dark, yeah, it gets dark and I  
I'm moving at the speed of light, I have to go  
But now I know, it gets dark so I can see the stars

It gets dark so I can see the stars  
It gets dark so I can see the stars  
It gets dark so I can see the stars
