

# Silence, La Troia

Dance, girl  
here before me  
Dance with passion,  
my Salome  
The ice gets cooler  
as the heat increases  
You'll have to crawl  
before tasting her kisses

You've got it all  
Don't give it away  
You've got it all  
Niente rimarr

Smooth movements  
caress the dancefloor  
She's a desert isle  
worth being ship-wrecked for  
She's welcome as a sin,  
as sweet adrenalin  
She's the most exciting game  
even though you just cannot win

Watch her slide  
beyond shame  
Beyond false morale  
so shallow, so vain  
Where there is smoke  
there's also fire  
Wherever she is  
there is desire

The stars - obstajajo samo e v glavi  
The world - je okrogel, vendar z vogali  
The blood - e ni voda, je pa na poti pravi  
Welcome to your life - v vnaprej izgubljeni stavi
