

# Silence, She Alone

Fighter planes came  
Fires blazed all night  
But it's okay -  
she's alright  
Fighter planes swarmed  
every single night  
But it's okay -  
she said 'I'm alright'

It's not okay  
It is not alright  
Only vultures  
stalk their prey  
at night

Breathing poison  
makes it hard to see  
It's a fight  
for democracy  
Spreading justice  
with uranium  
Welcome  
to the new millennium

They say they won  
I'm not so sure  
They won a battle  
She won the war  
She alone
