

# Silent Voices, Avalon

From ahead the thunder roars  
Below- the raging waves of sea  
in the blackend sky  
He's bound to carry on  
Into the source of desperate pleas  
He hears the call  
To carry on  
into the dark horizon  
In his heart burns the fire of the dawn  
And in his veins the ancient blood  
He is the child reborn from the flames  
He holds the destiny of all  
He sees it all  
In the horizon  
The endless shores of Avalon  
To relight the world again  
He dives to the dragon's den  
Avalon-Shine your light to the heart of darkness  
Cary on- Through the raging fire  
Avalon- Bring peace to the world of madness  
Cary on- The flames are burning higher  
In the heart of the darkest den  
Lies the serpent's lair  
The temple of chaos and dismay  
The source of all despair  
He fights them all  
A flaming sword  
Slaying the cursed horde  
The flames rise up to the sky  
As the serpent's fire up strikes  
Avalon-Shine your light to the heart of darkness  
Cary on- Through the raging fire  
Avalon- Bring peace to the world of madness  
Cary on- The flames are burning higher  
Avalon-Shine your light to the heart of darkness  
Cary on- Through the raging fire  
Avalon- Bring peace to the world of madness  
Cary on- The flames are burning higher
