

# Silent Voices, On The Wings Of Rage

Imprisoned by my thoughts  
Enslaved by my hate  
there's nothing left to say  
Yes, I will make you pay  
The flames rage inside  
The fury will be my guide  
You shall drown in pain  
Had enough of your lies  
You have gone too far  
You've crossed the line now  
And I will take you down  
The fear in your eyes  
And your useless cries  
I shall unleash my hate  
Fire-Burning Higher  
From the ashes of your wasted life  
I shall rise to the raging sky  
I will leave behind this world of lies  
On the wings of rage  
Had your chance my friend  
Now prepare for the end  
No more words, no apologies  
The wounds are too deep  
The fire in my eyes  
It will never die  
Consumed by my rage  
Fire-Burning Higher  
From the ashes of your wasted life  
I shall rise to the raging sky  
I will leave behind this world of lies  
On the wings of rage  
Fire-The Holy Pyre  
Feel it burning ever higher  
From the ashes of your wasted life  
I shall rise to the raging sky  
I will leave behind this world of lies  
On the wings of rage
