

# Silentium, Heart Unyielding

My heart is unyielding  
My dreams are fulfilled  
Yet so full of longing  
Without him it's stilled  
Untouched by all evil  
My true love and I  
My hope and my sole will  
His sight so divine

My heart is stern faithful  
No tempt or a lie  
Never bitter nor hateful  
O'er waves chanted sigh  
Shamelessly yearn for him  
For his heart I know  
In the winds my lust burning  
In the winds my heart woe

I am your fear of weakness  
I'm your guilt and the fault  
I grant you all eternal  
I grant you all desires

My heart is sheer forthright  
Nor guilt neither fault  
No shadows of hellwraith  
No sin to be found

I am your fear of weakness  
I'm your guilt and the fault  
I grant you all eternal  
I grant you all desires

My heart is unyielding  
I am his but alone  
Yet so full of longing  
Awaits whilst he's gone  
My love stands eternal  
His touch I desire  
Wraiths of all infernal  
Our love will defy
