

# Silverchair, Dearest Helpless

Dearest helpless  
Intent's not as bad as the action  
Take a breath to distort  
The fear in your eyes  
I don't mean it to hurt  
But every time I hate you  
I think of you first  
He's made you blind  
You're better on your own  
I'm just the kind to bring you down

Equalize the pressure, it's all too much  
Sex drugs and image is just enough  
To get you by in the real world

He's made you blind  
You're better on your own  
I'm just the kind to bring you down

He's made you blind  
I'm just the kind  
To bring you, to bring you...  
He's made you blind  
You're better on your own  
I'm just the kind  
To bring you down
