

# Silversun Pickups, Mercury

Looking forward now  
Leaving you to fill it all in  
Reflecting in your pile  
Of damaged goods and blisterings

It's my way  
It's my way

Do I still enjoy  
To watch it all go haywire  
Promise to move again  
So you can return to whatever it is that you did

It's my way  
It's my way  
It's my way  
It's my way

It's the way we all learn to divide  
It's the only way out of this drought and you'll never know why  
Never know why

Moving closer now  
Towards our final goal  
Disappear into blame  
Til we meet again thank heavens you don't see it my way

When machines in your room can't survive  
And all your devices stand by, you'll never know why

It's my way  
It's my way...
