

Simian Mobile Disco, I Believe

I believe
You could be
What I need
To believe

I believe
You could be
What I need
To believe

I believe
You could be
What I need
To believe

I believe
You could be
What I need
To believe

It's the same old song
That I always sing each year
But because it's perrenial don't make it less real

And I believe
That she could be
What I need
To believe

I believe (I believe)
You could be
What I need
To believe

I believe
You could be
What I need
(Oh just keeps coming round again)
To believe

I believe
You could be
What I need
(It just keeps coming round again)
To believe

I believe
You could be
What I need
(It just keeps coming round again)
To believe

The conclusion I need is easily reached with you
You have given me all and there's nothing left to do

And I believe
That she could be
What I need
To believe

I believe
Just keeps coming round again

I believe

You could be
What I need
(Just keeps coming round again)
To believe

I believe
You could be
What I need
(It just keeps coming round again)
To believe

I believe
You could be
What I need
(It just keeps coming round again)
To believe

I believe
You could be
What I need
To believe
