

# Simon Townshend, So Real

It's all so real It's all so real

A night of sleepless Closed eyes and still I feel it I know it's near I'll fall into this way again I see my own

It's all so real It's all so real

A night in my mind And now I'm sure I feel it Within the darkness The chill can take me out again

It's all so real It's all so real

Fly high, here's surprise Fly high, here's surprise Turn around see yourself behind You've got to float up

I said, I said, I said, I said It's all so real I'm going, and now I'm coming back again
