Simon Townshend, So Sleep

So sleep; so sleep reality unwind in me
Go deep, go deep inside
Stay free; take peace and everything you do
Do as you please
So sleep so sleep in mind
Cause it's all you ever wanted
To be thinking that they're knotted
When you opened your heart and you see what you feel
And you know what you want from life
Sit back and relax and let it all heal
Cause you got the time in your mind
So sleep so sleep give everything you are to be
Go deep, go deep inside
Take you cause you and everything will follow through
So sleep, so sleep in mind
Cause it's all you ever needed was something to believe in
When you open your heart and you see what you feel
And you know what you want from life
Sit back and relax and let it all heal
Because you've got the time in mind
So sleep my baby, sleep my
Got to sleep my baby sleep
So sleep; so sleep reality unwind in me
Go deep, go deep inside
Cause it's all you ever wanted
To be thinking that they're knotted
When you opened your heart and you see what you feel
And you know what you want from life
Sit back and relax and let it all heal
Cause you got the time in your mind
So sleep, so sleep, so sleep
