

Simon Webbe, All I Want

Ask me where the worst place
Could possibly be,
Well I'm already there girl
Guess how long it took
To set all my demons free
Well I'm already there girl

I got my wake up call
When you shut that door
And it all became clear to me

[chorus:]
All I want is you
I'm no longer confused
My life is not the same and I'm to blame
I need you babe
Say this love won't die
Give me one more try
Don't really have to say
You gotta leave you wanne break
I need you Baby
Oh yeah, oh yeah, yeah, yeah

I swear I'll change my ways
If you promise to stay
Wanna know my biggest fear girl

So take a look at me
See how I've changed
There's no-one to take your place

[chorus]

I need you babe

Girl I know I did you wrong
Yeah baby
I gladly take you back if I could oh..
I don't wanna fuss and fight
Just gotta make things right
We've still got the time

All I want is you
I'm no longer confused
My life is not the same and I'm to blame
I need you babe
Say this love won't die
Give me one more try
Don't really have to say
You gotta leave you wanna break

[chorus]

All I want is you [x4]
