

Simon Webbe, No Pressure On You

So here I am
And I'm ready to
Talk all through the
Night if you want to
We'll do whatever you wanna do
See, I'll make you understand
I won't be the man to let you down
Coz baby I'll be around, yeah

And girl I know that
You've been hurt before
Let me reassure you
There's only good intentions
If you'll relax and let
Your feelings flow
Soon you'll know

(Chorus:)
Girl there ain't no pressure
We'll do it the way you like to
Just remember
I will always be here for you
Girl whenever
Rain or sunny weather
Just remember
That there ain't no pressure on you

And there you are
Right in front of me
My soul sister and my queen
Ain't nobody else compares
The way you look
And the things you say
Amazes me in each and every way
And I'm reminded every day

Coz girl I know that
You've been hurt before
You can't take no more
Of all the false pretences
So let me take this
Chance to ease your mind
We can take our time

(Chorus)
Pressure...
Like to...
Remember...
I will always be here for you
Girl whenever
Rain or sunny weather
Just remember
That there aint no pressure on you

And girl I know that
You've been hurt before

(Chorus x3)
