

Simple Plan, Boom

BBB-Boom! (x3)

In a world full of heartache
Seems like everyone's burning out
You and me we did it our way
And this love ain't running out
We got that fire, that glow
And I just need you to know

You're my favourite song
My sing-along
You shine bright like lighters in the dark
And you're my clarity
The best part of me
You still make my crazy little heart go boom!

BBB-Boom! (x3)

You still make my crazy little heart go boom!

Don't worry about tomorrow
'Cause these walls will never fall
I just want to let the world know
What we got's unbreakable
We got it under control
We're good, we're solid, we're gold

You're my favourite song
My sing-along
You shine bright like lighters in the dark
And you're my clarity
The best part of me
You still make my crazy little heart go boom!

BBB-Boom! (x3)

You still make my crazy little heart go boom!

You make my crazy little heart go
And now I never want to let go

You make my crazy little heart go
And now I never want to let go

You're my favourite song
My sing-along
You shine bright like lighters in the dark
And you're my clarity
