

# Simplified, Slow Down

Lovely, unbelievable, white heat, beautiful beyond compare  
I got the shivers from the chills you give me  
And I'm slowly sliding off my chair  
Feeling a slight intoxication  
Lost in the way you swing your hips  
In my mind over and over I wonder  
How long till I taste your lips

If I, gave myself would you love me  
If I, gave it all would you take it, could you take it

Sexy, smiles from across the bar room  
You make my head spin  
I can't help wanting you  
I've got to slow down, to keep my head in this game  
It feels so good, to know you want me too

If I, gave myself would you love me  
If I, gave it all would you take it, could you take it

Looking up looking down as the world goes round  
Thinking of you while I lick this town  
Driving home all alone so much to say  
You know I love it when you act that way  
Cause you treat me fine always on my mind  
Make me think I found my way this time  
Driving home its been a long way  
Tell me that I found true love today

If I, gave myself would you love me  
If I, gave it all would you take it, could you take it
