

# Simply Red, Ghetto Girl

Stay at home, now  
That little girl was born on the ghetto side of town  
She knows every trick in the book and she certainly gets around  
She's been with many men since she was only ten  
She never stay at home, she's always on the town

Your mamma is wondering where you are  
What do you see at night when you're under the stars

Stay at home  
Sister stay at home  
Don't let your mamma down  
Don't be a run around

Stay at home  
Sister stay at home  
Don't let your mamma down  
Don't be a run around  
Stay at home, now

That little girl was born on the ghetto side of town  
She knows every trick in the book and she certainly gets around  
She's been with many men since she was only ten  
She never stay at home, she's always on the town

Your mamma is wondering where you are  
What do you see at night when you're under the stars  
Baby keep on running and you won't get far  
You like to travel with all those movie stars  
You like a hangin' in the big long shiny cars

Sister stay at home  
Don't let your mamma down, no no no no
