

# Simply Red, Smile

You make me smile glowing shine  
You make me glad to be alive  
With love that's easy to survive

The girl that i lost when i was blew  
Has confirmed my heart grows stronger  
When there's you  
Cause you make me smile  
You make me smile

True love won't find a better way  
Fake love as planets get away  
New love won't find a better place to stay  
The moment that i loved you always knew  
My heart loves longer and stronger when there's you  
Cause you make me smile  
You make me smile

The color of my blood is truly justified  
That was me it was me I never lied  
My blood flows trough you  
And my heart goes trough you when you cried

It's no good to plot i've never wondered why  
Who'd to be who'd to be i'd never tried  
It's enough to know you  
And to love you baby is my pride

Loving you forever is a must  
And for now and my love will never be denied

Cause you make me smile  
You make me smile  
You make me smile  
You make me smile  
You make me smile
