

Sinead Lohan, Bee In A Bottle

The bee in the bottle is breaking his head
I caught him today I'm gonna keep him 'til he's dead
And noone here is watching his life
This king is in there dying

Baby bee is looking at me
There's no air in the jar and he just can't breath
He's got no strenght now to stand on his feet
This king is in there dying

This is all I ever needed and it's my life
This is all I ever needed and it's my life
To be the actor in the corner
This is my life

Nairobi told me and I kept it in my head
Nairobi called me and I left here
in the dead of the night

'We have reason to believe
you've caught our only majesty
We would like for you to set him free
and fly away'

This is all I ever needed and it's my life
This is all I ever needed and it's my life
To be the actor in the corner
This is my life

The bee in the bottle is shaking his head
I'm sorry for the times you thought I was dead
I've got no time now for suffering defeat
This king is in there dying

We could all see in but he couldn't see out
The bottle is in danger
He's filling it with doubt
It's only a time before I make you mine
This king is in there dying

This is all I ever needed and it's my life
This is all I ever needed and it's my life
To be the actor in the corner
This is my life

Nairobi told me and I kept it in my head
Nairobi called me and I left here
in the dead of the night
