

# Sinead Lohan, Send Me A River

we're doubtful of much hope today  
i'm so sad to see you sad  
goldness of feeling think of a roman

go in to the western wind  
send me a river  
see the ship on the sea  
send me a river  
'cos i am not where i want to be

designing for the kingdom  
and shaping to the crowd  
the scene was so revolting  
that the queen in the shame she bowed  
she bowed to the families of misfortune  
who had lost a lonely life to her

she did not know  
she could cause sorrow within  
send her a river  
see the ship on the sea  
send her a river  
'cos she is not where she wants to be

and when your evening gown  
trails into the mud  
remember what they're seeing  
is not what it's all about  
and you've got to walk on through  
with millions on either side  
watching you with their eyes

you did not know  
you could cause sorrow within  
send you a river  
see the ship on the sea  
send you a river  
'cos you are not where you want to be

we're doubtful.....
