

Sinisstar, Electric

Picket fences in decline
Out the way I'm comin' up
I'm connected
I'm infected
now your fucking time is up
I know it's all sublime but this is not a crime
Be rejected
Not affected
it happens every fucking time
I'm wired
wired into you
wired into your life (repeat)
Living a life that so obscene
From the sewer to the dream
Unpredicted
I addicted
Living in this fucking dream
With all the shit that in the way
Got to know just what to think
I can see it
gotta believe it
now I'm on the fucking brink
Society is killing me
Society
is killing me electrically
Society is killing me
Society Electric
I'm wired
wired into you
wired into your life (repeat)
Stop believing everything that you see up on the screen
Good to know you
Had to show you
you know what the fuck I mean
Take the Hippocratic oath
Then your life would be a joke
Automation
Across the nation
got you by the fucking throat
Society is killing me
Society
is killing me electrically
Society is killing me
Society Electric
I'm wired
wired into you
wired into your life (repeat)
Society is killing me
Society
is killing me electrically
Society is killing me
Society Electric
I'm wired
wired into you
wired into your life
Electric
