Sinisstar, White Noise

White Noise It's never the right choice With Idiot-box talk Just slammin' the shit A backlash With an alien contract They're making their contacts Embrace your city I not going down I'm taking over Turn me around Before you chill me [and then you chill me] Rat race Coming from out of the grave They're taking over the airwaves to put you in chains In that case I'm backing up my shit I think I'm over it You better brace your city I'm not going down I'm taking over Turn me around Then take me over I'm not going down I'm taking over Turn me around Then take me over Don't blow me away Don't learn how to lie Just throw me away And open my eyes Don't blow me away Just show me the way I'm not going down I'm taking over Turn me around Then take me over I'm not going down I'm taking over Turn me around Before you chill me [and then you chill me] I'm not going down I'm not going down I'm not going down...
