

Sinner, Hand Of Fate

With my claws and a silver dagger
Enough is enough, it's now or never
Face to face with dynamite
I'm set to explode ... in the heat of the night

Tear down the thunder of doom
Don't take that boat to the shore of evil
I hold my candle high ... in the night

Run with the wind - From the hand of fate
Run with the wind - But the hand of fate will catch you
Run with the wind - From the hand of fate
Hand of fate

Ow!

Another long and sleepless night
I'm gonna make it through all right
I've gotta go - run with the wind
Reach for the crown if you wanna be king

Run with the wind
Run with the wind
Run with the wind
