

# Sinner, Justice From Hell

(Sinner, Naumann)

Every night...

I woke up on the dark side, tangled in lies  
Chasing dreams, the night's getting colder  
You're not in sight

(Chorus 1:)

I don't want you, I don't need you  
I don't care for you  
You want to hurt me, wanna see me bleeding  
I'm still alive

(Chorus 2:)

One life, one chance  
You live just for the moment  
One life, one chance  
Even if heaven falls ... I'm living with the justice from hell

I believe ... this message's from you  
You call me king of fools  
Justice is gone ... and justice is done  
Accept my rules

(Chorus 1 & 2)

I don't want you, I don't need you  
I don't care for you  
You want to hurt me, wanna see me bleeding  
I'm...

One life, one chance  
You live just for the moment  
One life, one chance  
Even if heaven falls...

(Chorus)

From hell
