

# Sinner, Signed, Sealed & Delivered

there I'm sitting now  
around me everything  
works cold and empty  
there is no more faith

who says, you would have  
a good character lies  
your little black heart strikes  
on the wrong side

signed, sealed and delivered  
it's my wounded heart  
I knew it from the start  
signed, sealed and delivered  
I can't wait any longer  
can't get any wronger

your view changed  
and at the end i failed  
don't expect me to die  
with the pace of a snail

I could not do it  
what has happened here  
fought and crawling upward  
I mark pain property

signed, sealed and delivered  
it's my wounded heart  
I knew it from the start  
signed, sealed and delivered  
I can't wait any longer  
can't get any wronger

everything I felt you  
I forget the blue  
your words are full lies  
there's no more desire - no

here I'm sitting now  
around me everything  
works cold and empty  
there is no more faith

signed, sealed and delivered  
it's my wounded heart  
i knew it from the start  
signed, sealed and delivered  
i can't wait any longer  
can't get any wronger
