

Sioen, Sixteen Ladies

in the mood for love tonight
can never do me harm.
i want my sixteen ladies tonight
I put up my alarm

(chorus): and i'll be coming home late again
without a reason were down again
and i'll be coming out sorded again
call me near when my baby moves

call me near when my baby is ***
you never do my harm
I've got my sixteen ladies tonight
the sound of my alarm

chorus

never watch my lady go

** ** my queens to fight
never do me harm
got my sixteen ladies around
the tune of my alarm

chorus (2x)

you caught me around my baby you move
you caught me now walking 3x
you caught me around my baby you move
you caught me now joking
but you never watch my lady go
