

Sirens Hill, Try Your Best

There you go again
Yesterday I was a grateful man
Now I'm flashback in downtown train

Live like there's nothing left
You're not one to waste your time
Putting words into my mouth

But If you really care
Bring me home and just try your best
Bring me home and just try your best

Before we disagree
Put your light on my black days
Be my lesson I'll never learn

We try to forget this place
Where the walls begin to hear
Every picture start to bleed

Wish you were here
Where conversations never end
And perfect skies start to breathe again

But If you really care
Bring me home and just try your best
Bring me home and just try your best

Before we disagree
put your light on my black days
Be my lesson, I'll never learn
Be my lesson, I'll never learn

Without light
There's no dusk
Without dark
There's no us
There's no us
There's no me
There's no you

But If you really care
Bring me home and just try your best
Bring me home and just try your best

Before we disagree
Put your light on my black days
Be my lesson, I'll never learn
Be my lesson, I'll never learn

Just try your best
Try your best
Try your best

Be my lesson I'll never learn
Be my lesson I'll never learn
Be my lesson I'll never learn
