

# Sissi, Lighthouse (Estonia - piosenka na EUROWIZJA 2023)

Couldn't write music cause you're in all of my songs  
If i ignored this then maybe you'd truly be gone  
Put all this heartbreak just out of my mind  
But as long as you and I live under same sky

My heart will beat for you  
Each beat holding steady and true  
My lungs they breathe for you  
Your name on my lips with every exhale  
Each night I dream of you  
Each night we find a way  
To stay in the past, never let go  
Hold on to the place where we were for once more

You were my lighthouse  
Guiding me home  
I knew you like myself  
From the skin to the bones  
I once made a promise  
To love you as long as I live  
But now you're gone and I'm here alone  
Silently keeping my promises

Couldn't write music cause now there's shame in my songs  
Who knew these feelings would linger this long  
I keep telling the world the part of me that you lived in is gone  
If that was the truth, oh tell me why, the hell am I writing this song here for you

You were my lighthouse  
Guiding me home  
I knew you like myself  
From the skin to the bones  
I once made a promise  
To love you as long as I live  
But now you're gone and im here alone  
Silently keeping my promises

Silently keeping my promises  
Silently keeping my promises

You were my lighthouse  
Guiding me home  
I knew you like myself  
From the skin to the bones  
I once made a promise  
To love you as long as I live  
But now you're gone and im here alone  
Silently keeping my promises

You were my lighthouse  
Guiding me home  
I knew you like myself  
From the skin to the bones  
I once made a promise  
To love you as long as I live  
But now you're gone and im here alone
