

Sistem, Never

If you ever, look again
Look into my eyes again (x2)

And if you look back into my eyes
There were never lies, never never lies, never lies (x2)

Refren: Never, I will never love again
Somebody like you
I will never, never gonna be the same
Without my babe (x2)

If you ever, look again
Look into my eyes again (x2)

And if you look back into my eyes
There were never lies, never never lies, never lies (x2)

Refren: Never, I will never love again
Somebody like you
I will never, never gonna be the same
Without my babe (x2)

I will never love again... (repeat)

Refren: Never, I will never love again
Somebody like you
I will never, never gonna be the same
Without my babe (x2)
