

# Sister Hazel, Feel It

There's been days I've fallen  
And walked away the times I should have stayed.  
I looked away, yeah looked away ... so far away -  
and when you asked I said I'm not afraid.

[BRIDGE]

But now I can't hold it - hold it  
Flash a frozen smile when it boils down inside.  
No now I can't hold it - hold it  
Just a little crack ...  
And then the walls come tumblin' down

[CHORUS]

And I Feel It. It's my time don't try to steal it.  
Feel it. Reach inside  
Feel it. If you ask well I won't conceal it.  
Feel it. I used to wonder but now I finally know ...

Papa said the sun it also rises.  
But when I turn it's falling from the sky.  
It slips away - yeah slips away So far away.  
And leaves me staring only at the night.

[BRIDGE]

[CHORUS]

Watch the walls come tumblin' down ...
