

Sister Hazel, Sail Away

Edge of the water
South of the border
It takes me to higher ground
Lost in the weekend
Ain't it funny how the sea can
Make you feel found

[Chorus]
We'll just sail away
Into the southern night
Everything gonna be just fine
If you love that sea
Baby we'll sail away
Into the southern sky
Everything gonna be just fine
Sail away with me

Hoist up the main sail
Add a little bam to the ginger ale
Head on straight down to Mexico
Back in the boat with the band
For a little late night jam
Let it steal your soul

[Chorus]
And we measure the time
By the good ones that we have
Watch the hours turn to sand
While strikin' up the band

[Repeat Chorus 2x]

Music comin' from down the hall
Just makes you wanna sing along
Sail away

Show me the way up to your room
I'll put a sign up that says come back soon
Sail away

So here's to you and here's to me
Here's to getting lost at sea
And we'll sail away

Here's to you and here's to me
Here's to getting lost at sea
And we'll sail away
