

# Sister Hazel, Swan Dive

Would you think I was crazy  
If I stripped on down to my skin or  
Would you think I was free as a bee  
C'mon tell me - tell me - tell the truth now  
Would you think you could meditate in the middle of the eye of a hurricane  
Would you now but somehow we were tethered here together  
We can weather out the weather here

[Pre-Chorus]

Oh yeah I might be crazy - but that's not the same as insane  
And I'm scared - but that's not the same as being afraid

[Chorus]

If I throw myself over the edge  
If I find myself in over my head  
If I shatter from the fall and I lose  
I'd still want to swan dive - into you

So tell me now what you're thinking  
A Lincoln for your thoughts or a dollar for them all yeah  
Well I can take the truth - no I can't - yes I can  
Tell me we were meant to be - a happy accident  
Would you cry if I said it  
Would you get it if I told you that I want you and I need you  
Aw that wouldn't say enough  
Hell I love you  
How bout that yeah
