

Sister Sledge, Somebody Loves Me

Here I am again, alone in my lonely room
How can I believe you loved me?
Here I sit, just thinking of it
All the time that we spent together

We were holding hands
Making lots of plans, the good things
A lover and a friend to me
You were so easy to love

How can I believe
That somebody loves me?

What happened boy, to the love we shared
How can I believe you loved me?
I just need to know that you cared
Honetly, is the love still there?

And if you me like you say you do
Why don'e we make plans for two?
All I need is some kind of sign

How can I believe
That somebody loves me?

How can I believe
That somebody loves me?
How can I believe
That somebody loves me?

How can I believe
That somebody loves me?
How can I believe
That somebody loves me?

How can I believe
That somebody loves me?
How can I believe
That somebody loves me?

...
