Sister Sledge, Somebody Loves Me

Here I am again, alone in my lonely room How can I believe you loved me? Here I sit, just thinking of it All the time that we spent together

We were holding hands Making lots of plans, the good things A lover and a friend to me You were so easy to love

How can I believe That somebody loves me?

What happened boy, to the love we shared How can I believe you loved me? I just need to know that you cared Honetly, is the love still there?

And if you me like you say you do Why don'e we make plans for two? All I need is some kind of sign

How can I believe That somebody loves me?

How can I believe That somebody loves me? How can I believe That somebody loves me?

How can I believe That somebody loves me? How can I believe That somebody loves me?

How can I believe That somebody loves me? How can I believe That somebody loves me?
