

Sister Soleil, Blind

Look
Look at me
I'm not just what you want to see
Look at me
I'm so young and i'm so old

And god gave me a heart
And god gave me a mind
And god gave me my life, twice

And i.....i feel deeper than any ocean
You could ever swim in
I love bigger than any sky that you've ever seen
With your two blind eyes baby your so blind

I'm a child
I will remain so
The spirit is the same its the same
In the same place i have my temple
Nothing can take it away

And i tried to be like the sun
I'm of the sun
I tried to shine through my life time

And i.....i feel deeper than any ocean
You could ever swim in
I love bigger than any sky that you've ever seen
With your two blind eyes baby your so blind

And i tried to be like the sun
I'm of the sun
I tried to shine through my life time

And i.....i feel deeper than any ocean
You could ever swim in
I love bigger than any sky that you've ever seen
With your two blind eyes baby your so blind

I.....i feel deeper than any ocean
You could ever swim in
I love bigger than any sky that you've ever seen
With your two blind eyes baby your so blind

Shine like the sun
Shine like the sun
Shine like the sun
Shine like the sun
Shine like the sun
Shine like the sun
Shine like the sun
Shine like the sun

I.....i feel deeper than any ocean
(Shine like the sun shine like the sun)
You could ever swim in
(Shine like the sun shine like the sun)
I love bigger than any sky that you've ever seen
(Shine like the sun shine like the sun)
With your two blind eyes baby your so blind
(Shine like the sun shine like the sun)

Your so blind
