

# Six Feet Under, Brainwashed

You will die - no love there for you  
There's no guiding light  
to lead you through the night  
Only screams of torment, only fear and emptiness  
No life after the grave - only pain  
Lies- lies to live and die by  
Passed down through the years  
The truth? They'll never let you hear  
Only screams of torment, only fear and emptiness  
No life after the grave - only pain  
Pain - pain  
The disease of life continues  
Only the blind will follow  
And rot in the dirt  
Afraid to live - dead before you died  
Brainwashed - you live blind  
Brainwashed - they rot alive  
Brainwashed - preach your lies  
Brainwashed - I watch you die  
You will die - no love there for you  
There's no guiding light  
to lead you through the night  
Only screams of torment, only fear and emptiness  
No life after the grave - only pain  
Only screams of torment, only fear and emptiness  
You're the one who is lost - brainwashed
