Six Feet Under, Hacked To Pieces

Butchered - born to bleed
No known cure for my disease
I'll start to slice and kill and maim
I'll pick up a hammer smash in your face
Torn up, I'll continue to kill you
I'll grab a knife and stick it in you
Your body mangled drenched in blood - blood
Pulverized, I'm on another attack
Don't turn your back, I bought my pick-axe
Look into my eyes, these eyes are dead

As I kill I still cum blood Torn up, I'll continue to kill you I'll grab a knife and stick it in you

Your body mangled drenched in blood - dead Torture, unbearable - hallucinate to victimize

More killing under way, your flesh will bear my pain

Dislocated - reconnected, stitched together

Obscene pleasure, profane vision - hacked to pieces Severed, worm-infested, dismembered in your coffin

I'll dig you up just to kill you again

I will violate you Rot - rot - rot

Blister - the flesh will fester, boils explode pus

Suture dead parts together, decapitated headless neck

Gouging eyes of the partially decayed Skull cracked open to expose your brain

Blood flows - hacked to pieces

Severed, worm-infested, dismembered in your coffin

I'll dig you up just to kill you again

I will violate you

Rot - rot - rot - rot - the body will rot

Cut the throat - you'll make the heart stop

Rot - the body will rot

Arteries harden - blood now clots

Severed, worm-infested, dismembered in your coffin

I'll dig you up just to kill you again

I will violate you

Rot - rot, your body will rot

Rot - rot, your body will rot

Rot - rot, your body will rot!
