

Sixx:A.M., Pray For Me

[Verse 1]

She lights a candle, but she doesn't know why.
She wants to save me, but i'm barely alive.
My soul is thirsty. I just wanna get high.
Make her go away.

[Pre-Chorus]

Now i'm hitting the wall and she begs me to quit,
And she drags me to church but i'm scared to commit,
And i'm loosing my mind 'cause she hides all my shit.
She wont go away.

[Chorus]

And all I ask of her is
Pray for me,
'Cause I don't want to
Pray for me,
If you love me.
Cross your heart and hope that I wont die before the best day of my life.
Just pray for me tonight.

[Verse 2]

I dragged myself out of the bed that she made,
And I escape her in a black motercade
She's pushing bibles and a clear bill of health.
I can't make her go away.

[Pre-Chorus]

Now i'm hitting the wall and she begs me to quit,
And she drags me to church but i'm scared to commit,
And i'm loosing my mind 'cause she hides all my shit.
She wont go away.

[Chorus]

And all I ask of her is
Pray for me,
'Cause I don't want to
Pray for me,
If you love me.
Cross your heart and hope that I don't die before the best day of my life.
Just pray for me tonight.

[Electric Solo]

[Final Pre-Chorus and Chorus Combo]

Now i'm hitting the wall and she begs me to quit,
And she drags me to church but i'm scared to commit,
And i'm loosing my mind 'cause she hides all my shit.

I don't want to
