

Skaladdin, Boiled Eggs

We are walking down the street
He was standing in a parking lot
We put our money together
And bought it on the spot

We drove our baby home
And started with the cleaning
We painted black and white
And had a good feeling

We'll have an accident in the ska bus
We'll have an accident before noon
We'll have an accident in the ska bus
And it will happen soon

We partied all night
And woke up with a headache
We drove the bus to the city
'Cause we needed a coffee break

We took the cups in the bus
And I spilled it while I drove recklessly
My nut sack burned, oh my god
Now I have problems to pee

We had an accident in the ska bus
What have we realized
We had an accident in the ska bus
The family future's jeopardized

What do we learn from this fuss
No more coffee in the bus

From now on it's clear
In the bus we only drink beer

We had an accident with the ska bus
We trashed our little baby
We had an accident with the ska bus
Did we drink too much? Maybe...
