Skaladdin, Boiled Eggs

We are walking down the street He was standing in a perking lot We put are money together And bought it on the spot

We drove our baby home And started with the cleaning We painted black and white And had a good feeling

We'll have an accident in the ska bus We'll have an accident before noon We'll have an accident in the ska bus And it will happen soon

We partied all night And woke up with a headake We drove the bus to the city 'Cause we needed a coffee break

We took the cups in the bus And I spilled it while I drove recklessly My nut sack burned, oh my god Now I have problems to pee

We had an accident in the ska bus What have we realized We had an accident in the ska bus The family future's jeopardized

What do we learn from this fuss No more coffee in the bus

From now on it's clear In the bus we only drink beer

We had an accident with the ska bus We trashed our little baby We had an accident with the ska bus Did we drink too much? Maybe...
