

Skeeter Davis, My Sweet Loving Man

You don't have to be as strong as a mountain
And you don't have to hold the world in your hand
All you have to do to make your baby love you
Is just be yourself my sweet loving man
You don't have to be as handsome as Elvis Presley
You don't have to change what nature has planned
All you have to do to make your baby love you
Is just be yourself my very own sweet loving man

You don't have to be a rich millionaire to win my heart completely
All you have to do is take me in your arms hold me and kiss me so sweetly
You don't have to be a knight in a shining armor
You don't have to rule a kingdom in Spain
All you have to do is tell me that you love me
And you'll always be my very own sweet loving man

[choir]

You don't have to be as handsome...
My very own sweet loving man very own sweet loving man
My very own sweet loving man
