

Skew Siskin, Introverdet

Always hide my face and hide what I feel
Introverted life, inside I know what is real
But you came into my world took away my fear
I took my time for reflection I wanna know that you're sincere

Always hide my face and hide what I feel
Introverted life, inside my soul is hard as steel
Then you walked into my world with no prejudice inside
I took my time for reflection 'cause I didn't wanna hear no lies

You crawl inside my world and let me in your mind
Watch me with your and analyse me blind
I nestle under your wings and leave the past behind
Cut the strings and tie me down and lift me to a higher ground

Always hide my face and hide what I feel
Introverted life, inside I know what is real
Always hide my face and hide what I feel
Introverted life, my sould is one thing you can't steal

I feel so high when I touch your sky
