

# Skid Row, Forever (Unreleased)

Forever (Skid Row)

Verse 1:

Remember when we were young  
Just two kids on the run  
With a fist full of dreams

Drinking wine, playing cool  
Stay out late, cutting school  
Wild Cigarettes like James Dean

Bridge:

In the back seat of my Chevrolet,  
Where the radio would play and play!  
And all the world would fade away!

Chorus:

Together we stand  
Well it's just you and me  
So baby hold on and you'll see

Forever we stand  
And we'll make it through  
'Cos I know I can't live without you  
No...no no no....

Verse 2:

They said we're growing up too fast  
What we have would never last  
So we left without goodbyes

And then sometimes we got tough  
The roads ahead looked kinda rough  
And all we had was you and I

We prayed to God on those cold dark nights  
And then we knew that it would be all right  
We'd go through hell just to hold each other tight!

Chorus:

Together we stand  
Well it's just you and me  
So baby hold on and you'll see

Forever we stand  
And we'll make it through  
'Cos I know I can't live without you

Post-Chorus:

As long as the world keeps turning  
As long as there's another day!  
Together, forever, we'll stand!!

Solo

Bridge:

In the back seat of my Chevrolet,  
Where the radio would play and play!  
And all the world would fade away! Yeah!

Chorus:

Together we stand  
Well it's just you and me  
So baby hold on and you'll see

Forever we stand  
And we'll make it through  
'Cos I know I can't live without you

Outro:

Forever, Forever, forever we stand!  
FOREVER, FOREVER, FOREVER WE STAND! Yeah!
