

Skid Row, Resurrected

Yeah!
Brothers and sisters
Listen to me say
The world's on fire
But not the end of days
It's not religion
I'm not the voodoo child
Don't bless my heart or curse my soul
Just lead me to the wild
Judge and jury in suits and power ties
Stone cold and living out their lies
We're not playing dead
That's all in their head
Now's the time to see
We're resurrected
No one can bring us down
Or push us underground
We're back where we should be
We're resurrected yeah!
Got to remember
To look them in the eye
And watch their smile crack
As they bleed the system dry
Drunk with power without a soul to save
I know that you know that we know what they know
Crossing fingers that I fall on my face
But they're still jumpin in my grave
We're not playing dead
That's all in their head
Now's the time to see
We're resurrected
No one can bring us down
Or push us underground
We're back where we should be
We're resurrected
We're resurrected
Resurrected... resurrected... resurrected
We're Resurrected!!!
We're not playing dead
That's all in their head
Now's the time to see
We're resurrected
No one can bring us down
Or push us underground
We're back where we should be
We're resurrected
We're not playing dead
That's all in their head
Now's the time to see
We're resurrected
No one can bring us down
Or push us underground
We're back where we should be
We're resurrected
We're Resurrected!
