

Skillet, Collide

We have fallen
We have fallen again tonight
Where do we go from here
When they're tearing down our lives?
When all they want is
When all they want is
For us to live in fear
How long can we hold on?
Can we hold on?
Hold on

There's something deep inside
That keeps my faith alive
When all you can do
Is hide from the fear
That's deep inside of you
Something, something, something
Something, something, something
To hold me close when I don't know
There's something deep inside
That keeps my faith alive

We are healing
But it's killing us inside
Can we take a chance?
When faith and fear collide
We can make it
Step out and take it
We can't live feeling so numb
How long can we hold on?
Can we hold on?
Hold on

There's something deep inside
That keeps my faith alive
When all you can do
Is hide from the fear
That's deep inside of you
Something, something, something
Something, something, something
To hold me close when I don't know
There's something deep inside
That keeps my faith alive [2x]
