

# Skillet, I Trust You

Learning again that I am not my own  
Crawling back to where I belong  
Caught in between knowing You and trusting me  
Come on take a ride out of the in betweens  
Now I know I need You

[Chorus:]

When I can't see, I will trust You  
And when I get weak, I trust You  
And when I just can't let it go  
I trust that You are in control

Shelter me so I can find some peace  
Grabbing hold of You is letting go of me  
It's easy when I remember I possess all that lays beyond my grasp  
Your power commands the weight off my back  
Now I know I need You

[CHORUS]

Now I know I trust You
