

# Skillet, Your Love (Keeps Me Alive)

I walk through the desert, hide from the sun  
All that I desire is You  
Occasional water cools my thirst  
All I that I desire is You

I don't want to live dying on the inside

I breathe so softly, don't feel too content  
Apathy whispers and makes me think  
Am I just another man whose time went fast

What does it take to be called great  
I don't want to live dying on the inside

Because Your love is better than life  
Because Your voice heals me inside  
Because my soul is satisfied  
Because Your love keeps me alive

I cannot be silent, Im crying out  
My soul is cold, my heart is numb  
I break from my old self and step into You

You complete what was never enough  
Because Your love is better than life  
Because Your voice heals me inside  
Because my soul is satisfied  
Because Your love keeps me alive

Keeps me alive with the strength to speak  
This generation is dying to see  
Who You are and how You free  
Come Lord Jesus come

I've seen lots of dead men walking around

Make my heart alive  
Because Your love is better than life  
Because Your voice heals me inside  
Because my soul is satisfied  
Because Your love keeps me alive
