

Skin, Monkey

(M. Gray, N. MacDonald, G. Burtnick)

Yeah! Yeah yeah yeah

There's a new book in town, everybody wanna read it

A new look in town, everybody wanna see

A new face in town, everybody wanna feed it

A new god in town, everybody wanna plead

Mirror mirror on the wall, who's the biggest fool of all?

I see the face on my TV, looking just like me

Chorus:

You follow me and I'll follow you, the monkey see and the monkey do

You're bad for me and I'm bad for you, you can be my monkey too, yeah

There's a new riff in town, everybody wanna play

A new heart in town, everybody wanna break

A new drug in town, everybody gonna take it

A new god in town, everybody gonna pray

Mirror mirror on the wall, who's the biggest freak of all?

I see the lemming take the lead, down into the sea

(chorus)

Don't mess with me baby, ow!

(Solo)

Yeah!

There's a new riff in town, everybody wanna play

A new heart in town, everybody wanna break

A new drug in town, everybody gonna take it

A new god in town, everybody gonna pray, yeah

Mirror mirror on the wall, who's the biggest freak of all?

I see the lemming take the lead, down into the sea

A face on my TV, looking just like me

You follow me and I'll follow you, the monkey see and the monkey do

You mess with me and I'll mess with you, you can be my monkey too, yeah

You can be my monkey too, ow! You can be my monkey too, yeah

You can be my monkey, let me be your monkey

We all need a monkey too, oh
