

# Skinlab, One Of Us

You're one of us  
We're one of you  
Coming together through native tongue  
Respect for me, Respect for you  
How do we even know where we survive  
Nothing can separate now that your one of us  
Believe in me, Believe in you  
All that shines through leaving me scarred for life  
Now that your one of us nothing can separate  
Deceiving me, Deceiving you  
All comes around when our planets collide  
Nothing can separate now that your one of us  
Now that your one of us  
Believing me, Scaring me  
What do you even expect from us?  
It's killing me, it's killing you  
All this technology taking our lives  
All this technology feeding our families  
You're one of us, We're one with you  
Now that you're one of us  
You can separate  
You can separate us now
